**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-39, drawn to an isolated DNA sequence of SEQ ID NO: 3 encoding SEQ ID NO: 7, recombinant polynucleotide, plant cell/plant comprising said sequence, methods that employ said sequences, and probes and primers derived from said sequence.

Group II, claim(s) 1-39, drawn to an isolated DNA sequence of SEQ ID NO: 4 encoding SEQ ID NO: 8, recombinant polynucleotide, plant cell/plant comprising said sequence, methods that employ said sequences, and probes and primers derived from said.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The invention of claim 1 is taught in the prior art as evidenced by Colby et al (PNAS, USA (1998), vol. 95, pp. 2216-2221 (Applicant's IDS). Colby et al teach DNA sequence encoding a protein having germacrene A synthase activity (see at least the abstract).

Hence, there is no special technical feature that links the DNA sequence of SEQ ID NO: 3 with the DNA sequence of SEQ ID NO: 4 of Group II. In addition, there is no disclosed structural feature common to all DNA sequences encoding a protein having germacrene synthase activity. Therefore, inventions of Groups I-II are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
